

# **Water Sustainability Luncheon Roundtable**

**Advisory Committee on Water Information**

**Thursday, January 18, 2007**

**Herndon, VA**

## **Participants:**

1. Steven Heiskary, North American Lake Management Society
2. Matt Reis, Water Environment Federation
3. Norm LeBlanc, National Association of Clean Water Agencies
4. Harry Zhang, American Water Resources Association
5. Bob Goldstein, Electric Power Research Institute

## **Scribe:**

6. Ethan T. Smith, Coordinator, Sustainable Water Resources Roundtable

## Future Actions of the SWRR:

- Some actions are underway, such as seeking case studies about water sustainability.
- The largest action not begun is a national conference on water sustainability. SWRR has lacked funding and staff to develop a national conference of its own. No decision on this topic was reached during the discussion.
- To date, regional meetings of the SWRR have been held in Washington, D.C.; Palo Alto, CA; St. Paul, MN; and Ann Arbor, MI.
- Spin-off actions have also occurred, with presentations on sustainability made at the national meetings of ACWI member associations, including the Water Environment Federation and the American Water Resources Association.

## Membership:

- Individual ACWI members expressed interest in the subgroup.
- They will also consider possible participation by others in their individual organizations.
