

STIWG

Chairperson: Bonnie Wyatt, Forest Service Secretary: Charles Allen, Bureau of Reclamation

Who are we?

Satellite Telemetry Interagency Working Group (STIWG) is a user group for the GOES DCS.

We are an interagency working group of federal and state agencies.

STIWG has two officers, a Chairperson and a Secretary. Officers rotate annually.

What does STIWG do?

STIWG advises the manager of the NESDIS DCS on matters concerning satellite data relay user requirements as they relate to hydrologic, meteorologic, oceanic, and other environmental data;

Promotes data exchange and data sharing, research and development results;

Undertakes projects to benefit the GOES community.

Reporting Structure

STIWG is subject to the direction of and will report activities to the CESORN and the SOH of ACWI.

Current Projects and Concerns

Projects

Among the projects underway are the Emergency Data Distribution Network (EDDN) and LRIT Low-Rate Information Transmission

Concerns

Shrinking budgets and bandwidth intrusion are over arching challenges for all STIWG members.
