**Conference Room E75-302** is located on the 7th floor of the east side of the East building of the twin DOT HQ buildings. It will make things smoother if attendees enter DOT through this entrance (4th Street Entrance) rather than any of the other three entrances to the twin buildings. Note that this entrance is the furthest entrance from the Navy Yard Metro Station. Please walk east, two blocks along M street, to get to this furthest entrance on 4th street. It is a nice 15-20 minute walk and you can learn about the History of Transportation as you pass by narrative signs, sidewalk plaques and transportation artifacts along the way. There is also a Starbucks coffee shop built in to the DOT building and DOT cafeteria located on the ground floor of our East Building.

Please see website describing general directions to USDOT including Metro, driving and parking directions:  [http://www.dot.gov/directions](http://www.dot.gov/directions)

Brian strongly recommends visitors to take Metro rather than drive since parking is scarce. Please also give yourself at least 15-20 minutes to walk from the Navy Yard Metro and a few minutes to get through the security screening. Please be ready around 1130AM in the East Building lobby.

1. Federal Highways Administration is located near the Navy Yard Metro Station on the Green Line. Most folks will be coming from the center of town on the Green train heading to Branch Avenue. When you disembark from the Branch Avenue train at Navy Yard turn to your right towards the front of the train and head out the exit for US Dept. of Transportation. If you go left you will end up at the Half Street Exit towards Nationals Ballpark...you don’t want that.

2. Walk two blocks east along M Street until you get to 4th street.

3. Turn right onto 4th street and enter DOT at this entrance on your right.

4. Tell the security guards that you are here for the SOH Meeting and that Brian Beucler, E75-119, (202) 366-4598 is your host. The guards should have your name from a list that was provided to Brian on 10/25. Brian or one of his colleagues will escort you to the 7th floor conference room. NOTE: You should expect to be screened just like entering an airport. You will be given a visitors badge. Laptops are ok but they will be screened and not recommended.

5. After the meeting, Brian will escort everyone down to the ground floor entrance where you had entered. You will also return your badges and checkout.

Some of FHWA colleagues involved in Hydraulics and Climate Change are planning to drop in and out during the meeting and presentations. Please call Brian at 202-366-4598 or my cell 703-431-8296 if you are having difficulty with the logistics.
