1/ National Streamflow Information Program provides funding for the backbone "Federal interest" streamgaging network.

2/ Hydrologic Networks & Analysis provides funding for water-quality monitoring networks (Hydrologic Benchmark Network and NASQAN) that fall outside National Water-Quality Assessment Program activities.

3/ Cooperative Water Program provides funding for surface water, groundwater, and water quality monitoring, as well as interpretive studies.

Note: WaterSMART is funded by programs managed both within and outside the Water Mission Area (the water programs are in blue):
