

NWQMC Collaboration and Outreach 16 February 2017

Attendees: Alice Mayo, Wendy Norton, Sheri Alcalde, Kim Martz, Candice Hopkins, Dan Sullivan, Marie DeLorenzo, Kris Stepenuck, Martha Clark Mettler

1. NWQMC Poster and the Water Quality Portal Poster

- The group gave final comments on the layout of the two posters. They look so fantastic and are very close to final.

ACTION: Kim will have a few people proofread posters and will finalize them. She will post them to the website when final under our Publications tab.

2. State and Regional Council Contact Update

- Our current roster of State and Regional Councils is out of date, and we need to update our roster and contacts for each group.
- The roster is attached, and each work group member has been assigned to contact a state or regional council and make sure we have correct contact information.
- Our website will have an updated link for each council.

ACTION: C&O Members are to contact councils and update contact information, and to add any other existing councils they may know of to this roster. Updates to this roster should be made ASAP.

3. Linking Resources for State and Regional Councils

- We'd like to summarize reports and resources for State and Regional volunteer Monitoring Groups that are available on our website in a simpler format
- Julie Vastine has a student that can help us with this project. Candice and Julie will meet about this small project in early March.
