

## **Subcommittee for Spatial Water Data Meeting**

March 19, 2014; 3pm EDT

### **Attendees**

Steve Aichele (USGS)  
Bryan Baker (USACE)  
Mitch Bergeson (FWS)  
Wendy Blake-Coleman (USEPA)  
Nancy Blyler (USACE)  
Stephen Daw (USGS)  
Tommy DeWald (USEPA)  
Karen Hanson (USGS)  
George Heliene (USGS)  
Gary Merrill (USGS)  
Pete Steeves (USGS)  
Dan Walters (USGS)  
Ron Wencil (USGS)

### **Focus topic – Watershed Boundary Dataset**

#### **Presentation from Karen Hanson and Stephen Daw.**

<ftp://ftpext.usgs.gov/pub/wr/ut/salt.lake.city/WBD/PPT/SSWD/>

Question: What's the outer extent of WBD ?

Answer: NOAA 3 mile nautical boundary

Q: What scale/size will the NWIS drainage areas be?

A: The lines will be based on 1:24K WBD, but the Drainage Areas will vary based on the gage – from just a few square miles to thousands of square miles.

### **Round Robin**

Karen Hanson – Added that FY15 planning is underway.

Mitch Bergeson – NWI is nearing completion for the CONUS. Big roll out/announcement for May 1. May is Wetlands Month.

Bryan Baker – Corps has completed inventory of Corps levees, working on incorporating FEMA levees. Also working with State Dept on international levees.

**Next Meeting June 18 3PM.**
