OWOW Steering Committee

Draft OWOW Plan Goals

1. Achieve resilient water resources through innovation and optimization.

2. Ensure high quality water for all people and the environment.

3. Preserve and enhance recreational areas, open space, habitat, and natural hydrologic function.

4. Engage with members of disadvantaged communities and associated supporting organizations to diminish environmental injustices and their impacts on the watershed.

5. Educate and build trust between people and organizations.

6. Improve data integration, tracking and reporting to strengthen decision-making.

Indicators for the Goals

1. Achieve resilient water resources through innovation and optimization.

- *Increased local supply*
- *Attainment of outdoor budgets*

2. Ensure high quality water for all people and the environment.

- *High quality groundwater*
- *High quality surface water*

3. Preserve and enhance recreational areas, open space, habitat, and natural hydrologic function.

- *Abundance of vegetated riparian corridor*
- *Abundance of conserved open space*

4. Engage with members of disadvantaged communities and associated supporting organizations to diminish environmental injustices and their impacts on the watershed.

- *Access to clean water*
- *Community resiliency to climate change*

5. Educate and build trust between people and organizations.

- *Effective collaborative actions*
- *Watershed ethic*

6. Improve data integration, tracking and reporting to strengthen decision-making.

- *Broaden access to data for decision-making*
- *Streamlined data sharing and reporting*
